## How We Use This Data

When you consent to analytics cookies, we collect:

- **Country and city:** To understand which regions our visitors come from (resolved server-side via GeoIP, no cookie required).
- **Network provider (ASN):** To identify the type of network visitors use (resolved server-side, no cookie required).
- **Screen resolution:** To understand which devices and screen sizes our visitors use, helping us optimize responsive design.
- **Pages viewed:** To identify our most useful content.
- **Referral source:** To understand how visitors find our website.
- **Language preference:** To improve our multilingual support.

**Privacy by Design** We never store raw IP addresses. Visitor identification uses a daily-rotating hash that cannot be traced back to you. All analytics are processed on our own servers — no data is sent to third-party analytics services.
